It is planned to integrate all efforts of professional people and interested laymen to strengthen the community's support for all libraries; to encourage their use; and to increase the community's awareness of the increasingly vital role READING plays in our national life.

Reinhold A. Barth, pastor, youth speaker, and evangelist, speaking at the Calvary Baptist Church of Grayling, Mich., from April 13 to 19 at 7:30 p.m. The Church auditorium is located at 808 Chestnut Street.

Reinhold Barth began to study theology and preach when only 15 years of age. He was ordained to the Gospel Ministry before his 21st birthday, and pastored two churches for eight years in Michigan. He was the founder and director of Kalamazoo Youth for Christ for 3 1/2 years, a Saturday night youth rally that continues now in its sixteenth year.

## Tenth District Dems Meet In Grayling

On Saturday, April 11th, the 10th District Democratic met at the Chief Shoppengons Motor Hotel at 11:00 a. m. for lunch and a district meeting. All but two counties had good representation. Quite a few from Grayling attended for Crawford County. The meeting was planned to give the counties instructions on how to conduct the coming 1964 fall election. There was a very good attendance and a very interesting program.

Neil Staehle, Democrat Congressman at large from Michigan, who is a Democrat candidate for Governor spoke to the group. Neil spoke at great length on Michigan's economy, education, civil rights, and war on poverty.

Michigan should be better off financially this year than in the past because of the Federal income tax cut. This cut in Federal income tax leaves 37 million dollars more money in Michigan with the taxpayer to spend as he needs or wishes. Another fact Neil pointed out that most don't realize is that 85% of the cars manufactured in Michigan are sold outside the state, thus bringing more money to Michigan. Everyone who met Neil for the first time was very impressed with him.

Zoltan Ferency, State chairman, Adelaide Hart, state vice chairman, Charles Moskovich, 10th Dist. chairman, William A. Burgett, deputy Auditor-General, Ray Derksen, vice chairman of State Aero. Commission also spoke briefly on party organization.

Marilyn Kelley from Albion College was also introduced as she is running for State Board of Education on the Democratic ticket.

Part of the above named flew in to the airport and were met by Bob Smock and Sandy Thompson and brought to the hotel.

Neil announced he will be back in Grayling soon for a meeting with all local Democrats and wishes to meet each and everyone in Crawford County regardless of their party affiliation. Both Bob Smock and Lora Gould, co-chairmen of the Staehle Committee locally, have both petitions and bumper stickers. If you have not been contacted, see any one on the Staehle Committee.

## Luncheon Sparks Cancer Drive

Chief Shoppengons Motor Hotel and the Grayling State Bank jointly sponsored a kick-off luncheon for the cancer drive at the hotel on Tuesday last. Following the luncheon volunteer workers for the drive were given their campaign envelopes and the educational literature they are requested to distribute. The campaign began Monday, April 13th, and is to be completed by the 17th. This year's quota is \$1,043.91.

The luncheon tables were most attractive with cancer swords and cards bearing the crusade symbol. The Rev. Alfred Fennell gave the invocation. Mrs. B. E. Henig, committee chairman of the society, welcomed those present and expressed her pleasure at such a fine turnout. Over fifty were present. She introduced Gayle Smith of Flint, the District field representative for this area, who screened an educational film showing the proper way to call on prospective contributors. The film was done with the use of dolls and was refreshingly different from the usual run of campaign instructional materials. Mrs. Olin Williamson, campaign chairman, addressed the group and thanked them for the work they were about to do. Mrs. Eli Beery, the educational chairman, told of

the movies to be shown concerning cancer and smoking, cervical cancer, and cancer and breast self-examination. An interesting point she made is that breast cancer, the biggest killer of women, is discovered by the victim herself in 95 percent of the cases, so self-examination can save your life. "This year's campaign slogan is 'Tell Your Neighbor.' Spread the gospel of the importance of a annual checkup. There are five thousand pieces of literature to be distributed in an effort to better inform everyone."

## Area Visitor In Midst of Alaska Quake

Arlene Lepstik, who is an ardent mushroom hunter and who has come to the Grayling area for the last six or seven seasons, was in the midst of the recent earthquake in Anchorage, Alaska.

She dropped a letter describing some of the events to Crawford County Chamber of Commerce manager and secretary, Robert Hayes and Mrs. Roy Roper. Despite her rather frightening experiences, she still plans to come to Grayling for the mushroom season. Following is her letter:

Hi Marge and Bob, I imagine I came into your mind when you heard the news, so will set your mind at ease. I'm sure you don't want to lose your mushroom. Ha! I came out on top and that is more than I can say for many people. Sure was a horrible time. Anchorage will never be the same (or should I say Alaska). You just cannot imagine the damage it has done, and an awful lot more when the thaw comes. All the earth looks like a giant spider web, cracks everywhere, giant cracks in some places. I saw trees split

## FOREST FIRE HITS 8 ACRES IN COUNTY

On Wednesday of last week, April 8th, there was an all-day snowstorm that laid down a three inch deep over the county, and was nearly state-wide. On Sunday, April 12th, Forest Fire Officer for Crawford County Forest Annis received word the Down River Fire Tower of a forest fire at 2:50 p. m. in the Forest Service area. A fire from the Luzerne tower located the blaze at the east end of Wakeley Lake, on Sec. 23, T26N, R2W. Two units, a pumper and tractor-pull, were dispatched from Crawford County, and units from Mjo were also sent to the area, both arriving at about the same time. The Crawford County units had difficulty in getting to the fires as they had to get through a locked gate past the Dennison property on M-72 east.

The fire started near the buildings where the old Timberlands mill was situated, and burned over about eight acres. Officer Annis stated, in the former chip and sawdust pile area. The sawdust pile was still burning the first of the week, long after the main fire had been put out. Officer Annis stated the cause of the fire was unknown.

A blaze was started in mid-afternoon Monday when a tree fell on a power line at the Rocky Meadows house on M-72, a half-mile east of the Stephan Bridge Road. About one-tenth of an acre was burned over in back of the building. Forest Fire Officer Annis was away checking what appeared to be an out-of-control burning when the Down River Fire Tower reported this blaze, and two calls came in from the down river residents also on it.

A call came in Tuesday at about 9:15 a.m. from the Down River tower on a blaze in Sec. 9, T27, R1W near Dam 4 on the North Branch. Four pieces of equipment were battling a pretty hot wind-whipped fire at the time of writing.

Dr. B. E. Henig and Dr. Vernon Blaha attended the 16th Cancer Day sponsored by the Genesee County Medical Society at Hurley Hospital in Flint this Wed.

## Let Bids On County Road Paving Projects

On April 8, 1964, bids were opened for the awarding of contracts for 12.5 miles of paving on county roads at various locations in Crawford County, at the Civic Center in Lansing. Representing the Crawford County Road Commission at bid openings were Harold T. Johnson, Chairman, Elmer A. Corsaut, Howard H. Mead and Engineer Superintendent Bruce Carlson. Six bids, ranging from a high of \$85,143.00 to a low submitted by Central Paving Co. of West Branch of \$73,087.00, were received. Because competition was keen among the contractors, all bids were below Engineer Carlson's estimate of \$87,500 for the work. Crawford County's work was among the 49 State and County projects for which bids were opened.

Since these projects are financed by 50% Federal funds and 50% County Road Commission funds, bids must be received by the Michigan State Highway Department and require the representation of the Crawford County Road Commission at the bid letting to concur with or reject the low bids so that contracts may be awarded in accordance with Federal Bureau of Roads requirements.

The five locations to be paved under this contract are as follows: Military Road, from US-27 Freeway to the Fletcher Road, approx. 1.77 miles; Sherman Road, from the Babbitt Road north 2 miles to the North County line; County Road 612 from M-93 west 3 miles to the I-75 Freeway; Elk Hill Road from the new Kellogg Bridge east 2.77 miles to the East County line; McMaster Bridge Road from M-72 north 3 miles. Completion date for this contract is September 1, 1964.

Another bid let at the same time was for one mile of paving in Otsego County on Sherman Road north from the Crawford-Otsego county line. This job was awarded to Williams Brothers of Ionia on a bid of \$7,998. Completion date for this project is September 1, 1964.

The fire started near the buildings where the old Timberlands mill was situated, and burned over about eight acres. Officer Annis stated, in the former chip and sawdust pile area. The sawdust pile was still burning the first of the week, long after the main fire had been put out. Officer Annis stated the cause of the fire was unknown.

A blaze was started in mid-afternoon Monday when a tree fell on a power line at the Rocky Meadows house on M-72, a half-mile east of the Stephan Bridge Road. ## GEISTER - WAITE WED IN CLIO

A double ring ceremony at 7:30 Saturday, April 4th, in Bethany Methodist Church, Clio, united in marriage Gretchen Geister, daughter of Mr. and Mrs. Wendell Geister, of Clio, and Carl Waite, the son of Mrs. Stella Waite, of Grayling, Mich. The double ring ceremony was performed by Rev. Paul Humphrey before relatives and close friends. She was given in marriage by her father.

For her wedding Gretchen chose a gown of pale blue nylon with bell shaped skirt. A back panel was held in place with a bow at the waist and a flowered headpiece set off with pearls held her veil. Her colonial bouquet was of white orchids and valley lilies.

For her sister's wedding Jean Geister chose a similar gown of blue nylon and her bouquet was of blue tipped carnations. Best man was John Degendorf and guests were seated by Jim and Kirk Geister, cousins of the bride.

About 100 guests attended the reception held at Rogers-Lodge directly after the ceremony where garlands of smilax and blue carnations decorated the refreshments and the gift table. The wedding cake was served by Mrs. Jim Geister and Gail Geister, also cousins of the bride. Manfred McClanahan was in charge of the guest book and Mrs. Robert Willis served punch. For her son's wedding Mrs. Stella Waite, wore a navy blue dress with white accessories and the brides mother wore a pink print. Their corsages were of pink roses.

The bride, a senior at Flint University of Michigan will live in Clio until she completes her Bachelor's degree after which she will join her husband in Rhode Island until fall when he will attend radar school in San Francisco, California. He has completed four years in the Navy and he is a Petty Officer third class.

## Letters To The Editor

Editor's Note — The following letter was received by Crawford County Superintendent of Schools Frank Bond who was closing up some holes in his records. The writer was a former county resident of many years ago and it is felt that it would be of great interest to many Avalanche readers.

295W. Breckenridge  
Ferndale 20, Mich.  
March 21, 1964

Mr. Frank Bond  
Superintendent of Schools Crawford  
County  
Grayling, Michigan

Dear Sir:  
I received your letter and will give you more information so that you can file a "missing record affidavit."

At the advice of my principal Jas. A. Kalahar, I took the Michigan Teachers 3rd Grade Exam in spring of 1915.

I graduated in the first class of Frederic High School June, 1915. Arthur Cameron and Frances MacDonald were the other members.

I taught 1915-16, salary \$450.00. May 1, 1916, I passed 2nd Grade Michigan examination. Mr. Jas. Kalahar was commissioner. I taught 1916-17, salary \$500.00 and I have a record from Lansing Sept. 3, 1947, for credit of \$1.50 retirement. In April, 1917, Mr. Kalahar advised me to go to a larger town.

I have a letter of recommendation from Mr. Charles Craven dated April 10, 1917, stating that I had taught the Intermediate room in the Frederic school for the past 2 years. He was the Treasurer. His wife was a sister of Mrs. Tobin and I taught Max Tobin, who I presume is the father of Bill Tobin, Trustee, R. R. Frederic listed on your Directory.

When I returned to full-time teaching in 1948, I went to Lansing to have my records brought up to date and I had written a letter to Mr. C. S. Barber, Frederic, on Oct. 15, 1928. He answered with a notation on my letter — "Dear Mrs. Corrigan, Sorry but I have not in my possession information asked for. When our school burned we lost a lot of our records. Signed Yours truly, C. S. Barber."

So with Mr. Craven's letter and Mr. Barber's (2 school board) I guess you'll have to use their information.

I taught Ted Callahan, Grayling; Chester Burke, Frederic; Dolly Smock, a sister of Liland Smock, Grayling; Don Reynolds, a brother

of Mrs. Smock, and a Johnson boy, probably related to the Harold Johnson on your Directory.

I notice there is a James Madill listed on the directory. Mr. Madill Sr. formerly lived here.

I have an unusually long career but am in good health and loved every minute of it. I quit teaching in 1923, when I married in Bay City. I started to substitute in 1937, hoping for occasional calls as I had three children, but I was kept busy every day so I returned to full-time in First Grade East Detroit in

1948, where I am still employed. With this long letter and history I'm sure you need not question an affidavit. Thank you for your trouble. Sincerely, M. Vera Cameron Corrigan, P. S. My present salary is \$7,900.

## AN INTERNATIONAL CELEBRITY ARRIVES AT THE FAIR

The occasion is the New York World's Fair... the scene is the spectacular General Motors Futurama — and the car, of course, is Cadillac.

And the Cadillac car is a standout attraction even in this distinguished international company. Drive any of eleven 1964 models and you'll discover why.

There's Cadillac's magnificent and silent power. A 340-horsepower V-8 engine — most powerful in Cadillac history — generates performance so swiftly that we caution even long-time Cadillac owners to mind their speedometers. There is, in addition, the remarkable

smoothness of our transmissions — an improved Hydra-Matic or new Turbo Hydra-Matic.

There is the luxury of elegantly appointed interiors, together with the great convenience of power brakes and steering (plus power windows on most models) that have turned the 600-mile day into a restful reality.

And there is also investment. Find a fine car, if you can, that returns more than your Cadillac when you choose to sell or trade it.

Visit your Cadillac dealer soon. His selection of international favorites has never been more tempting.

## The Only Way...

The Administration proposal to require double payment for overtime work to create additional jobs may have a superficial appeal. But the built-in dangers in this proposal far out weigh any theoretical benefits.

It is pointed out by industry spokesmen, in the words of an AP report, that it would result in "... unwarranted government intervention in the conduct of private business." That is certainly true. But there is a much larger issue at stake than the effect this would have on industry. That issue is the broad public interest.

We consumers pay the cost of every element that enters into the overhead of a business — raw materials, transportation, rents, taxes, and above all, labor. Industry has no magic means of producing revenue. The price charged for its product or service must represent all the costs involved. That is true of the biggest manufacturer and the smallest retailer.

Also we, as consumers, bear the full and heavy burden of inflation when it comes. Any measure that would increase industry's wage costs is a certain shot in the arm to more inflation, and to a further cheapening of the already degraded dollar.

It will be argued that the new proposal would result in less overtime and the hiring of additional people. But here the vital element of efficiency enters in — and it is most certainly the prerogative of any business to decide for itself how its productive affairs can best be handled. The way to create more jobs is to encourage enterprise to press ahead.

## Clean-up and Fire Safety...

Five times an hour, 120 times a day, an American home is destroyed or damaged by fire starting in and feeding on rubbish.

These figures, from National Fire Protection Association studies, add a compelling reason for making Spring Clean-Up a time for vigorous action.

Maybe you don't have anything you would call "rubbish" or "trash" around your place. But go up into the attic and take a good, calculating look at any old mattresses, stacks of papers and magazines, discarded draperies and lampshades, and broken-down furniture. Check closets for old clothing. Go over the basement for near-empty paint cans, workbench scraps and oily rags. Don't miss the garage either.

Whatever you call it — rubbish, trash or clutter — it's all fuel for fire.

Get rid of it, and stay rid of such accumulations.

Then you and the house will likely be around much longer to enjoy that new paint job and spruced-up yard you worked so hard to finish this Spring.

## SOMETHING FOR EVERYONE

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

April 17, 1941

Fire, said to have been caused from spontaneous combustion, broke out at the home of Mrs. James Perry, south of Grayling Laundry Sunday afternoon, at about 5 o'clock. A small shed attached to the house was completely burned, however, outside of being smoked up some there was no damage to the house proper. Mrs. Perry was not at home, having been called to Detroit owing to the serious illness of her brother. Passersby saw the smoke and turned in an alarm and the City fire department was on the job in no time and extinguished what might have spelled disaster for some of the business places in that block. The damage is estimated at about \$150.00.

Ernie Borchers, well-known sportsman, fisherman, guide, florist, fly tyer, in other words a real trout king, is to rule as Kalkaska National Trout King. Ernie hails from Grayling and is known all over the country as a guide and an excellent fisherman. He is considered one of the only persons who can paddle a canoe with one hand, fish and retrieve with the other, both at the same time. He will be crowned by P. J. Hoffmaster, director of conservation, on Friday, April 25.

Workmen are busy putting a new roof on St. Mary's parsonage.

mit Charron is home from C. S. T. C. for the spring vacation.

Mr. and Mrs. Paul Ziebell returned home Wednesday afternoon from a week's visit with their daughter and husband, Mr. and Mrs. Fred Catlin, in Toledo.

Robert Herbison of M. S. C., East Lansing, was home for the Easter holiday.

Mr. and Mrs. Alfred Larson and sons Jimmy and Bobby, visited at the Carl Hanson home Sunday, enroute from their home in Johannesburg to Detroit. Miss Jeanne Hanson accompanied them to Saginaw where she is spending this week visiting relatives.

Ten days ahead of last year, the ice went off Lake Margrethe Monday, April 14. The high wind and the warm air Sunday did most of the work. A slight rain fell Sunday night and Monday morning the grass began getting green. Wednesday morning it began getting cooler, and in the afternoon a drizzly rain fell, continuing through the night. Thursday morning the temperature is still cool, but the sun is out and the mercury is rising slowly. The coldest was Wednesday morning at 6 o'clock when it was 39 degrees, and the warmest day was Sunday, at noon, when the thermometer registered 82.

S. J. Poucher of Kalkaska has taken the place of Mr. Legg at Phillips Market.

Clair Smith has moved his family to the military reservation for the summer. Jay McWilliams has rented the Smith home.

Mr. and Mrs. Ray Metzger and son Arland have come from Vanderbilt to make their home in Grayling and the former is the new barber at the Walter Cowell barber shop. Mr. Metzger had the misfortune to lose his shop in a fire that destroyed a grocery and beer garden and did damage to the fire hall in Vanderbilt last week.

Miss Helen Babbitt will continue her line of gifts and souvenirs in the same location. Mr. Davis is married and they have a little daughter. Grayling people will be sorry to lose Mr. Mills, who has taken an active interest in Grayling affairs ever since coming here, and has been an excellent

citizen. We welcome Mr. and Mrs. Davis and trust that they will find their venture here a pleasant and profitable one.

Sam Rasmussen has received word that he was the lucky bidder for the ten stables at the Military Reservation that are to be dismantled. There are many thousands of excellent lumber in these buildings.

46 YEARS AGO

April 18, 1918

Percy Husted has resigned his position at the Kraus hardware store and is working at the DuPont plant.

Mr. and Mrs. Charles Douglas of Johannesburg, well known former residents of this city, have left for Bridalveil, Oregon, to make their home.

Uncle Perry Ostrander came to town Monday to celebrate the 50th anniversary of his wedding. He said that Mrs. Ostrander came down last week but that they could not both be away from home at the same time. He is enjoying the week visiting at the homes of his daughters, Mrs. Frank Whipple and Mrs. Charles Waldron.

Mrs. Thorwald Peterson and little daughter Jean are guests of Mrs. Peterson's parents, Mr. and Mrs. C. M. Ross at Vassar, and expect to remain for a month.

After 15 years' service with the M. & N. E. R. Co., James Thompson has resigned and accepted a position at the DuPont plant. At the time of his resignation he was the local agent for that road. He will be succeeded by A. B. Johnson of Manistee.

Wayne Thompson was here from Lansing over Sunday visiting his father James and brother Grant. He is with the State Constabulary forces.

The light rainstorm Tuesday did wonders in quenching the forest fires that were getting a big start in many places about the county, as well as boosted the vegetable growth.

The Jensen home and barn in Beaver Creek in the Wellington district, also the outside cellar belonging to A. W. Parker, adjoining, were burned from forest and grass fires last week Friday. There was also some damage done to fruit trees. It was only by vigilant work on the part of the neighbors that the Parker home was saved.

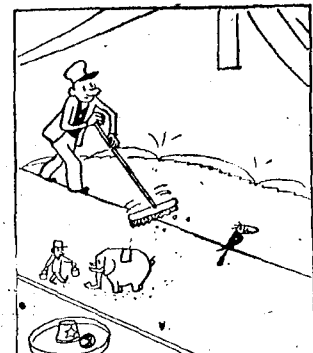

An oil stove explosion in the home of Mr. and Mrs. Earl Foland on Norway street Sunday afternoon set fire to the building and it burned to the ground. The fire was so hot that it drove the crowd of

spectators across the street and when the fire department arrived the fire was beyond control. The house adjoining had started to burn and sparks were flying to other buildings. It looked as though the whole block might be wiped out. A frozen hydrant on Cedar street caused some delay, and the chemical engine seemed to have little effect on the fire.

"Army Life from a Chaplain's Viewpoint" was the title of the fine address given Monday evening at Danebod hall by Lt. Alfred E. Sorenson, chaplain of the 329th Field Artillery, stationed at Camp Custer. Mr. Sorenson is the oldest son of Mr. and Mrs. Olaf Sorenson and came Sunday for a few days furlough.

### In Michigan...

at a picnic, beer is a natural

When you're relaxing at your favorite outdoor beauty spot with friends or family, and your thirst is whetted by fresh air and exercise—that's the ideal time for a cool, refreshing glass of beer. In fact, you can name your recreation—swimming, hiking, or just watching TV—and chances are nothing in the world fits it quite as well as beer.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Michigan...beer goes with fun, with relaxation

## Seek To Broaden Michigan Aid In Scholarships For College Students

**HELP FOR STUDENTS**  
A plan to broaden Michigan aid to college students an estimated \$1.2 million is getting closest proposal by the Legislature. This is the third year a state scholarship program has been proposed.

Its aim is to provide scholarships to more Michigan youth in Michigan private colleges. Part of the advantages is a reduction for more public expenditures at state universities.

Private college administrators are giving heavy backing to the proposal introduced by Sen. William G. Milliken, R-Traverse City. They say the state needs to provide more scholarship aid through the higher education appropriations for public colleges and universities. One spokesman for the group of private college officials is Dr. Laurence V. Britt, president of the University of Detroit. "The assistance to public schools is provided equally to the 17,000 or 18,000 out-of-state students in our colleges," he said. "If the state can supply public funds to assist non-residents of the state, we feel the least it can do is make scholarship aid available to all students in the state."

Support for the Milliken bill has been voiced by leading lawmakers by representatives of 16 private colleges in the state. The proposal would provide about 2,000 scholarships awarded on the basis of ability and need.

Private college spokesmen say the current space available in their institutions could be better used if scholarships were on hand for capable students. This would also alleviate some of the crowding pressures on the public institutions.

A bill similar to Milliken's measure, but providing for only 500 scholarships, was introduced in the House by Rep. Gilbert E. Bursley, R-Ann Arbor, and was approved by the Education Committee.

With two possibilities for action, officials of U. of D., Andrews University, and Albion, Alma, Adrian, Aquinas, Calvin, Hillsdale, Hope, Kalamazoo, Madonna, Marygrove, Mercy, Nazareth, Olivet, and Siena Heights Colleges are hoping for positive action this year.

**BIG WEEK**  
All stops will be pulled when Michigan observes its annual Michigan Week, May 17-24.

In addition to the annual mayor's exchange, special recognitions of various segments of the economy, and the big "Michigan Day" plans at the New York World's Fair May 18, another first has been added to mark the occasion.

The 1.3 million people in the country who receive the New York Times Sunday edition will receive a special supplement a week before Michigan Week.

Many other states have previously published these magazines detailing advantages in their domain, but the May 10 issue will be a first for Michigan.

The Legislature is being asked to put forth a portion of the cost of the supplement, but much of the cost will come from state advertisers.

Various specialty writers throughout the state are being asked to donate their talents to help spread the word about Michigan's industrial, residential, tourist and other advantages.

**OWES TWO BILLION**  
Debt is not a peculiarity of individuals or the state government, a report of the Michigan Municipal Finance Commission shows.

As of the beginning of the current fiscal year, local units of government in the state were in debt to the tune of more than \$2 billion.

This debt, which a Commission spokesman said represented Michigan communities "meeting in-

creasing needs," rises at about the rate of \$100 million a year.

Growth of the debt is marked weekly at the Commission meetings where approval is given for local units to issue bonds and notes to fulfill the responsibilities of government.

This debt has been growing steadily since the end of World War II.

E. B. Mikrut, Commission director, noted that 50 of Michigan's counties are now included in the debtors' list, as compared with 52 the previous year. Of 226 cities in the state, 204 are on the list.

The Commission's authority also includes villages, townships, school districts, independent units such as bridge authorities, and special drainage districts.

## Attend The Church Of Your Choice

### THE Twenty-Third PSALM

You've got to have your arms around a warm, woolly, wobbly lamb before the real meaning of the Twenty-third Psalm grips you.

You begin to realize how awkward, bewildered, helpless a lamb really is.

David wasn't merely singing of the Lord's faithfulness. He was confessing his own helplessness!

The key to religious faith is not simply the discovery of God's power. It is the discovery of our own need.

The Lord is OUR Shepherd.

- |   |   |
|---|---|
| 1 The Lord is my shepherd, I shall not want;                                      | 5 Thou preparest a table before me in the presence of my enemies; thou anointest my head with oil, my cup overflows.      |
| 2 he makes me lie down in green pastures. He leads me beside still waters;        | 6 Surely goodness and mercy shall follow me all the days of my life; and I shall dwell in the house of the Lord for ever. |
| 3 he restores my soul. He leads me in paths of righteousness for his name's sake. |   |
| 4 Even though I walk through the valley of the shadow of death, I fear no evil;   |   |

## Alaska Quake

(Continued from Page One)

right up the middle, half on one side the split and half on the other. The bay is full of homes that fell when the earth just cracked off and fell down, homes and all. Around 100 in all, people and all. There are streets that used to be there, but are no longer there. I looked down and saw street signs lying down in the rubble and all. Now the downtown was hit terribly hard too. They will demolish the new Penney building and numerous other buildings (the ones that did not fall down). Schools condemned, apartment houses condemned and other buildings. When the thaw comes what didn't crack will crack, and what almost fell down will and now sewage problems. Lots of people, no lights, heat, water nor anything. Bridges out, big holes. One big hole, the ground just caved in between 30-50 feet, everything fell in. Big chasms that if you didn't watch where you were going you fall in. Mercy! I'm afraid to look at the ground when the snow melts. If you can see the cracks through the snow, what will it look like when it thaws out and the snow melts? Everything will be tipsy. In order to see things straight up and down you will have to be drunk. Ha! Will tell you all about it when I come back. Sure hope I can make it by the season, although I was to pick up my car in Wisconsin on May 15, but will try to postpone it as I will have to fly out now (or aim to) as I don't relish that trip now over the roads. Be sure to send a card when you expect mushrooms. Send one here, and one to Mom to tell her so if I miss it here I will have it there.

Have to close now — see you soon, I hope.

During an election year, political experts are everywhere. They can tell you for sure who will get party nominations, and who will emerge as final victor.  
But, it doesn't always turn out they're right. In the final analysis, it's the vote of all the people that selects a winner. The man who earns the confidence of most of the people will win every time.

Aside from politics, there are some things about which you can be fairly certain. The successful local merchant, for example, is a "winner" because he has earned the confidence of the local community. He stands up to be counted every day, with every sale, with every service rendered.  
Whatever your needs, look first to the local business community, where you can trade with confidence.

For the 3rd time in three years, Fred Lorenzen takes the grueling Atlanta "500" at the wheel of his Ford.

## FORD TOTAL PERFORMANCE WINS ATLANTA "500" FOR 3RD YEAR IN A ROW!

Latest win gives Ford 11 out of last 12 NASCAR 500 milers!

ATLANTA, April 5: In a blazing exhibition of total performance, ace driver Fred Lorenzen piloted his specially modified '64 Ford to a stunning victory in the Atlanta "500" before a cheering crowd of 75,000 spectators. This victory marks the 11th time that Ford has captured a NASCAR stock car event of 500 miles or more starting in May, 1962.

In the past two years, tough, dependable Ford-built cars have carved out an

incredible history of victories in virtually every kind of automotive event possible—from stock car races to economy runs, from rallies to endurance tests.

This is the dramatic way to show that Fords have changed... and the sure way to be certain they keep on changing.

Ford enters special cars in open competition, in addition to its extensive laboratory and test track programs, because competition provides an intensity of testing that no proving ground alone can provide.

The lessons Ford has learned in racing have already led directly to such refinements as a stronger rear axle, streamlined "fastback" styling, better brakes and an improved ignition system.

Because Ford enters open competition, the cars at your Ford Dealer are stronger, better handling, safer and thrifter in the long run. They're built for total performance.

TRY TOTAL PERFORMANCE FOR A CHANGE!
